Goal: To train the next generation of physician-scientists and future leaders in biomedical research

The Physician Scientist Pathway at Penn:

• Two or three years of Internal Medicine residency
• Clinical fellowship
• Three years of mentored research
• Continuity clinic

The Penn PSP provides the following features:

• A peer group of physician-scientists at all levels of training
• Mentoring on career decisions and selection of research programs
• Diverse and interactive research community
• Integrated university campus with campus-wide research opportunities
• Additional financial support during residency and fellowship
